Reexamination Closed	42832	934	473	44239	10056	20	40	10116
Request for Invalidation	3851	14027	10622	28500	566	1323	860	2749
Invalidation Closed	3390	13096	9766	26252	555	1245	767	2567

The number of inventions in rejection and withdrawal includes the data of preliminary examination and substantive

Pendency of Examination of Invention, Utility Model and Design in Month
2007-2011

Year	Invention	Utility Model	Design
2007	26	7	7
2008	26	6	9.5
2009	25.8	5.8	5.5
2010	24.2	4.3	3
2011	22.9	4.7	2.6

Pendency of examination is counted by month. The pendency of examination of invention patent refers to the time between the data on which the substantive examination is launched and the data on which the case is concluded. The pendency of examination for a specific year refers to the average of all pendency of examination for all applications concluded in that year. Application for utility model and design follow the preliminary examination mechanism, and thus has a shorter pendency, from the data of filing.

PCT International Applications

1985. 4 - 2011.12

Items	Accumulated Number	2011
Received international applications	63546	17473
Record copies transferred by SIPO	62900	17526
International search copies received by SIPO	65434	17526
International search reports delivered by SIPO	54358	14553
Demands of international preliminary examination received by SIPO	6126	378
International preliminary examination reports delivered by SIPO	5874	325
International applications entering Chinese national phase (invention)	539749	65996
International applications entering Chinese national phase (utility model)	1260	324

Legal Status of Patent Applications and Grants according to Three Kinds of Patents

① affixing patent indication on a product or on the package of a product which has not been granted a patent, continuing to affix patent indication on a product or on the package of a product, after the related patent right has been declared invalid or is terminated, or affixing the patent number of another person on a product or on the package of a product without authorization.

② sale of the product as prescribed in subparagraph ①.

③ indicating a technology or design to which no patent right has been granted as patented technology or patented design, indicating a patent application as patent or using the patent number of another person without authorization, in such materials as specification of product ect., which could mislead the public to regard the related technology or design as patented technology or patented design.

④ counterfeiting or transforming any patent certificate, patent document or patent application document.

⑤any other act which might cause confusion on the part of the public, misleading them to regard a technology or design to which no patent right has been granted as patented technology or patented design.

Patent Enforcement of Punishment of Counterfeit Patents (2)
